

PYGLARA

Prensados y Galvanizados de Lara, S.A.

CLIENT REACTIVATION RESEARCH & HANDOFF BRIEF

Zona Industrial I · Barquisimeto, Lara · Venezuela

Research Date: March 2026

Executive Summary

PYGLARA (Prensados y Galvanizados de Lara, S.A.) is resuming operations at its hot-dip galvanizing and copper electroplating plant in Zona Industrial I, Barquisimeto, after being idle since 2015 due to a domestic zinc shortage. This brief covers research on 34 companies — 6 confirmed reactivation prospects and 28 historical clients — providing contact intelligence and operational status to support outreach.

1,440 TM/month Nameplate Capacity	300 TM/month Peak Historical Output	2 plants Active Competitors (all Venezuela)	0 domestic Copper Rod Competitors
---	---	--	---

Key Findings

Six companies have confirmed interest in placing orders upon PYGLARA's restart. Three of the six are located within Zona Industrial I, Barquisimeto — the same complex as PYGLARA — giving the plant a proximity advantage for pickup logistics. The electrical utilities (ENELVEN, ENELBAR, Electricidad de Caracas) no longer exist independently; all have been absorbed into CORPOELEC. The most strategically important opportunity is re-establishing the ground-rod supply relationship with CORPOELEC Zulia (formerly ENELVEN), which ordered 20,000 copper-clad ground rods from PYGLARA in 2004–2005. No domestic competitor is known to offer copper electroplated ground rods.

PRIORITY 1 — Reactivation Prospects

The following six companies have expressed interest in placing orders once PYGLARA resumes operations. Research below covers current status, full contact information, and PYGLARA-specific galvanizing relevance.

1. FREYSSINET TIERRA ARMADA DE VENEZUELA / GEOQUEST

FREYSSINET TIERRA ARMADA DE VENEZUELA / GEOQUEST (Freyssinet – Tierra Armada de Venezuela C.A. (rebranding as Geoquest Venezuela))		
ACTIVE	HIGH	RIF: J-00133672-9 Sector: Civil Engineering / Geotechnical (VINCI Group subsidiary)
Address: Av. Principal de Los Ruíces c/ 3ra. Transversal, Edif. Lanex, Piso 1, Of. 1-B, Los Ruíces, Caracas		
Phone: +58 212-238-8285 +58 414-133-0406 (WhatsApp) +58 412-996-4637		
Email: consultas@tierra-armada.com.ve		
Website: www.tierra-armada.com.ve www.geoquest-group.com.ve		
Social Media: Instagram: @freyssinetvzla @geoquest_venezuela LinkedIn: Freyssinet (corporate)		
Contact Person: Ramon Paz Besada (Director General) Claudia Marcano (staff)		
What they do: Reinforced earth retaining walls (Tierra Armada / TerraClass system), geotechnical engineering, bridge abutments and embankments. Subsidiary of Soletanche Freyssinet (VINCI Group) — one of the world's largest infrastructure contractors. Revenue ~USD 5.6M Venezuelan ops. ~32 employees locally. Rebranding to GEOQUEST Venezuela as of May 2025.		
PYGLARA relevance: Steel reinforcing strips, connection hardware, and structural elements for earth-retention systems require hot-dip galvanizing for long-term corrosion protection in soil-contact applications. Significant volume potential across infrastructure projects nationally.		
Notes: PRIORITY: HIGH. Active infrastructure contractor with VINCI Group backing. New brand @geoquest_venezuela active on Instagram with project portfolio. Company confirmed active with recent government infrastructure contracts.		

2. DISMACA

DISMACA (Distribuidora de Materiales Ferreteros Dismaca, C.A.)		
ACTIVE	MEDIUM	RIF: J-40468528-6 Sector: Engineering / Procurement / Construction (EPC) — Oil & Gas, Petrochemical, Industrial
Address: Av. Paseo Los Cumanagotos, Res. Don Kilate PB, Barcelona, Anzoátegui International: Santa Comba, Coruña, España		
Phone: +58 426-580-0942 +34 618-921-620 (Spain)		
Email: dismaca@dismaca.com		

Website: https://dismaca.com/
Social Media: Instagram: @dismacavzla Facebook: DiSMACA
Contact Person: Alessandro Gaone (Director de Operaciones) Jesús Vázquez (Gerente Adm. y Finanzas) Christian Villegas (Gerente de Compras)
What they do: EPC services for Oil & Gas and industrial sectors. Steel pipe fabrication, ferrous material supply for marine/construction industry, project management. Founded 1970s, expanded services in 1990s. Has Spain office (Europe / Middle East markets, est. 2014). Major projects: Cardón IV, Mega. PYGLARA relevance: DISMACA historically offered hot-dip galvanizing. Today they are best approached as: (1) an overflow capacity partner when their workload exceeds their own galvanizing capability, or (2) a referral/distribution channel into O&G sector customers who need galvanized structural steel. Notes: CAUTION: DISMACA operates its own galvanizing service and may be a partial competitor. Frame the relationship as complementary / overflow capacity. Their O&G client base is a high-value pipeline for PYGLARA.

3. SASGO

SASGO (Suministros Eléctricos SASGO, C.A.)		
ACTIVE	HIGH	RIF: J-31248868-9 Sector: Electrical Materials Manufacturing & Distribution / EPC
Address: Carrera 3 c/ Calle 19, Galpón N° 2, Zona Industrial I, Barquisimeto, Lara (SAME COMPLEX AS PYGLARA)		
Phone: +58 251-237-1610 +58 412-536-3346 (WhatsApp)		
Email: importacion@sasgo.com.ve ventas.sasgo@gmail.com		
Website: https://sasgo.com.ve/		
Social Media: Instagram: @sasgo.ve (4K+ followers) Facebook: sasgo.ve TikTok: @sasgo.ve		
Contact Person: Contact via social media or website form. Company has active Barquisimeto office.		
What they do: 30+ year manufacturer and distributor of electrical materials for high, medium and low-tension systems. Fabricates tubular posts, hexagonal posts, and lighting towers. Executes electrical projects: substations, public lighting, transmission systems. Active government contracts (CORPOELEC). Projects documented: Subestación Papelón, Palo Verde, Mariposa (Caracas). PYGLARA relevance: Excellent prospect. Electrical poles, towers, and hardware components manufactured by SASGO require hot-dip galvanizing for outdoor corrosion protection. Structural steel elements for substations need galvanizing. SASGO's active CORPOELEC contracts create a direct pipeline into the national electrical infrastructure supply chain. Notes: TOP PRIORITY. Located in Zona Industrial I — walking distance from PYGLARA. Active government infrastructure contracts confirmed 2025–2026 (SEN procurement documents). 30-year operating history and proven CORPOELEC relationships make this the single highest-quality reactivation prospect.		

4. INDUSTRIAS MARULLO

INDUSTRIAS MARULLO (Industrias Marullo, S.A.)		
ACTIVE	HIGH	RIF: J-07504626-9 Sector: Metal-Mechanical Fabrication / Agroindustrial Machinery / Structural Steel
Address: Av. Ferrocarril c/ Carrera 5, Zona Industrial I, Barquisimeto, Lara (SAME COMPLEX AS PYGLARA)		
Phone: +58 424-514-3859 +58 424-530-0124 +58 251-237-2203 +58 251-237-3490 +58 251-237-0294		
Email: marullo@hotmail.com		
Website: https://industriasmarullo.com/		
Social Media: Instagram: @industriasmarullo (4K+ followers, 300+ posts, active Jan–Mar 2026) Facebook: Industrias Marullo SA		
Contact Person: Company is family-owned (Italian-immigrant heritage). Contact via phone / email / Instagram DM.		
What they do: Founded 1955. Manufactures agroindustrial machinery and equipment, custom metal structures, precision machining, structural steel frameworks, metal carpentry for commercial/residential applications. National scope. Modern facility with CNC/plasma cutting. Very active on Instagram showcasing recent projects. PYGLARA relevance: Prime galvanizing customer. Marullo's fabricated steel components — machinery frames, structural elements, agroindustrial equipment — all benefit from galvanizing for corrosion resistance, particularly for agricultural and outdoor installations. Volume expected to be significant given their continuous production output.		
Notes: TOP PRIORITY. Founded 1955 — one of Barquisimeto's oldest metal fabricators. Same Zona Industrial I as PYGLARA. Very active on Instagram Jan–Mar 2026 with new project photos. Easy logistics: can likely walk orders over.		

5. GEDISA

GEDISA (General Distribuidora, S.A. (GEDISA))		
REACTIVATED 2026	MEDIUM	RIF: J-00046849-4 Sector: Electrical Materials Distribution / Caterpillar Parts / Technical Consulting
Address: Barquisimeto: Carrera 5 entre Calles 26 y 27, Galpón N° 2, Zona Industrial I, Barquisimeto, Lara (SAME COMPLEX AS PYGLARA) Caracas HQ: Av. Principal Boleita Norte, Edif. Cari, PH, Caracas		
Phone: Barquisimeto: +58 251-237-0193 / +58 251-237-2345 / +58 414-503-2546 Caracas: +58 212-239-8011 / 8243 / 8554		
Email: gedisa@gedisa.com.ve		
Website: https://www.gedisa.com.ve/		
Social Media: Instagram: @gedisaoficial Twitter: @gedisa Facebook: General Distribuidora S.A. Gedisa Threads: @gedisaoficial		

Contact Person: Contact via email or Barquisimeto office. Corporate structure with multiple branches.

What they do: 60-year-old electrical materials distributor. Distributes high, medium, and low-tension materials, Caterpillar parts and equipment, provides technical advisory and project support for electrical infrastructure. Revenue ~USD 52M (per ZoomInfo). ~72 employees. Extensive technical library (manuals, calculation programs, technical bulletins).

PYGLARA relevance: Distributor of electrical infrastructure materials — their customer base needs galvanized electrical hardware, structural supports, and grounding systems. GEDISA could serve as an indirect channel to end customers, and directly purchases galvanized components for resale in their catalog.

Notes: *CRITICAL UPDATE: GEDISA publicly announced reactivation of national operations on January 19, 2026 (confirmed via Threads post @gedisaoficial). Company underwent a suspension/restructuring period but has formally resumed. This makes it a fresh, high-priority reactivation call. Barquisimeto office is in Zona Industrial I — same complex as PYGLARA.*

6. MEICA G&L

MEICA G&L (Electro Forjas Meica, C.A. (suspected; also referenced as Metalúrgica Electro Industrial C.A.))

UNKNOWN	LOW	RIF: Not confirmed Sector: Electrical Manufacturing / Metal Fabrication (historical)
---------	-----	--

Address: Carrera 4 entre Calles 19 y 20, Zona Industrial I, Barquisimeto, Lara (historical address; current unconfirmed)

Phone: Not found

Email: Not found

Website: None found

Social Media: Facebook: 'Electro Forjas Meica CA' (19 likes, minimal activity)

Contact Person: Not identified

What they do: Historical manufacturer of electrical materials, metal fabrication and forging. Manufactured tableros eléctricos (electrical panels/boards). Last confirmed activity ~2012–2013 in legal records.

PYGLARA relevance: If operational, metal fabrication operations would generate galvanizing orders. However, current operational status is unconfirmed and digital footprint is minimal.

Notes: *NEW CONTACT (not in historical client list). Status unclear — may be dormant, restructured, or operating under a different name. The 'G&L' in the name MEICA G&L does not match 'Electro Forjas Meica' exactly; may be a newer partnership/rebranding. RECOMMENDATION: Verify via direct visit to Zona Industrial I address before investing outreach resources. LOW priority until confirmed operational.*

PRIORITY 2 — Historical Clients: Electrical Sector

PYGLARA's core market has always been electrical and telecommunications infrastructure. The three legacy utilities (ENELVEN, ENELBAR, Electricidad de Caracas) no longer exist as independent entities — all were merged into CORPOELEC by decree starting in 2007. Procurement strategy must now target CORPOELEC directly. The copper-clad ground rod line has no known domestic competitor, making CORPOELEC the most strategically valuable account to reactivate.

CORPOELEC — Corporación Eléctrica Nacional

CORPOELEC (Corporación Eléctrica Nacional, S.A.)		
ACTIVE	HIGH	RIF: G-20010014-1 Sector: State-owned integrated electric power corporation (generation, transmission, distribution)
Address: HQ: Av. Vollmer entre Caracas y Alameda, Edif. Centro Empresarial Caracas, Piso 6, San Bernardino, Caracas Lara/Barquisimeto: Av. Vargas c/ Carrera 24, Parroquia Catedral + Almacén N° 01, Zona Industrial I, Calle 16, Barquisimeto 3001 Zulia/Maracaibo: Av. Fuerzas Armadas, Maracaibo		
Phone: National: (0212) 502-2111 Emergency: 0500-502-0000 WhatsApp: 0426-515-9979 Lara: 0251-239-4050 / 0414-512-9894 Zulia: 0416-100-000		
Email: corpoelecresponde@corpoelec.gob.ve		
Website: https://corpoelec.gob.ve/		
Social Media: Instagram: @corpoelecinfo (national) @corpoelecZulia_ (Zulia) Facebook: @Corpoelecinfo @CorpoelecLara		
Contact Person: Regional procurement contact needed. Approach via: Lara regional office (Barquisimeto) for Zona Occidente; Zulia regional office (Maracaibo) for former ENELVEN territory.		
What they do: Venezuela's sole national electrical utility. Created July 31, 2007 by Presidential Decree N° 5,330. Absorbed ENELVEN, ENELBAR, Electricidad de Caracas, EDELCA, and others. Operates generation, high-voltage transmission, and regional distribution across all of Venezuela. Despite the economic crisis, CORPOELEC continues as the only functional electricity provider.		
PYGLARA relevance: MOST IMPORTANT ACCOUNT. CORPOELEC requires: (1) Copper-clad steel grounding rods for electrical earthing systems — PYGLARA's specialty with no known domestic competitor; (2) Hot-dip galvanized structural steel for transmission tower maintenance and construction; (3) Galvanized hardware, fittings, and fasteners for substation and line work. The precedent 2004–2005 ENELVEN order (20,000 copper ground rods, ~USD 168K) establishes PYGLARA as a proven CORPOELEC supplier.		
Notes: Procurement structure: Centralized purchasing with regional warehouses. Major contracts flow through headquarters, but day-to-day logistics and smaller orders often handled regionally. Lara regional warehouse is in Zona Industrial I — same complex as PYGLARA. Suggest approaching Barquisimeto regional office first as a warm local contact, then escalating to Caracas for volume contracts.		

ENELVEN → now CORPOELEC Zulia Region

ENELVEN (ENERGÍA ELÉCTRICA DE VENEZUELA) (Energía Eléctrica de
--

Venezuela (absorbed into CORPOELEC 2007–2012))		
ABSORBED → CORPOELEC	HIGH	RIF: Now under CORPOELEC RIF: G-20010014-1 Sector: Former electrical utility — Zulia and western Venezuela
Address: Now: CORPOELEC Zulia Regional Office, Av. Fuerzas Armadas, Maracaibo, Zulia		
Phone: CORPOELEC Zulia: 0416-100-000		
Email: Via CORPOELEC national: corpoelecresponde@corpoelec.gob.ve		
Website: https://corpoelec.gob.ve/		
Social Media: Instagram: @corpoelecZulia_		
Contact Person: Contact CORPOELEC Zulia regional office for procurement inquiries.		
What they do: Was the primary electrical utility for western Venezuela (Zulia state and Lake Maracaibo oil region). Nationalized and merged into CORPOELEC 2007–2010. All operations now run through CORPOELEC Zulia. PYGLARA relevance: ENELVEN placed the single largest order in PYGLARA's history: 20,000 copper-clad ground rods in 2004–2005 (~USD 168,000). This contract is the foundation for reestablishing the CORPOELEC Zulia relationship. The need for copper ground rods in electrical earthing has not disappeared — CORPOELEC Zulia still maintains and builds transmission/distribution infrastructure in the oil region.		
Notes: No longer an independent entity. All orders must go through CORPOELEC. Reference the 2004–2005 contract history when approaching CORPOELEC Zulia procurement.		

ENELBAR → now CORPOELEC Lara Region

ENELBAR (ENERGÍA ELÉCTRICA DE BARQUISIMETO) (Energía Eléctrica de Barquisimeto (absorbed into CORPOELEC 2007–2010))		
ABSORBED → CORPOELEC	HIGH	RIF: Now under CORPOELEC RIF: G-20010014-1 Sector: Former electrical utility — Lara state
Address: Now: CORPOELEC Lara, Av. Vargas c/ Carrera 24, Barquisimeto; also Almacén N°01, Zona Industrial I, Calle 16, Barquisimeto 3001		
Phone: CORPOELEC Lara: 0251-239-4050 / 0414-512-9894		
Email: Via CORPOELEC national		
Website: https://corpoelec.gob.ve/		
Social Media: Facebook: @CorpoelecLara		
Contact Person: CORPOELEC Lara regional warehouse in Zona Industrial I — same complex as PYGLARA.		
What they do: Founded June 9, 1914. Was Lara state's local electrical utility for over 90 years. Merged into CORPOELEC 2007–2010. PYGLARA relevance: CORPOELEC Lara is PYGLARA's local utility neighbor. Lara regional warehouse is in Zona Industrial I (same complex). Closest procurement relationship geographically. Galvanized hardware and copper ground rods for local distribution maintenance.		
Notes: Best entry point for CORPOELEC procurement. PYGLARA is literally in the same industrial zone as the CORPOELEC Lara warehouse. A face-to-face visit to the regional warehouse manager		

should be the first outreach step.

ELECTRICIDAD DE CARACAS → now CORPOELEC Caracas Region

ELECTRICIDAD DE CARACAS (EDC) (C.A. La Electricidad de Caracas S.A.I.C.A. (absorbed into CORPOELEC 2007–2012))		
ABSORBED → CORPOELEC	MEDIUM	RIF: J-000043663 (historical); now CORPOELEC: G-20010014-1 Sector: Former private/state electrical utility — Gran Caracas
Address: Now CORPOELEC HQ: Av. Vollmer, San Bernardino, Caracas (former EDC HQ building)		
Phone: CORPOELEC national: (0212) 502-2111		
Email: corpoelecresponde@corpoelec.gob.ve		
Website: https://corpoelec.gob.ve/		
Social Media: @corpoelecinfo		
Contact Person: CORPOELEC headquarters, Caracas.		
What they do: Founded November 27, 1895. Was Venezuela's largest and most important electric utility, serving Gran Caracas. Acquired by AES Corporation (2000). Nationalized February 9, 2007. Formally merged into CORPOELEC by 2012. PYGLARA relevance: No direct documented relationship with PYGLARA. The Caracas region procurement is managed centrally from CORPOELEC HQ. Lower priority than Lara and Zulia regions for initial outreach.		
Notes: Historical significance only. Procurement now through CORPOELEC Caracas. Lower priority — focus Lara and Zulia regions first.		

CATECA — CA. Tecnoelectrica Cabimas

CA. TECNOELECTRICA CABIMAS (CATECA) (Compañía Anónima Tecnoelectrica Cabimas)		
LIKELY ACTIVE	MEDIUM	RIF: J-07029714-0 Sector: Electrical Engineering / EPC — Zulia oil region
Address: Av. 41, Sector Bella Vista, Edif. CATECA (frente al cementerio nuevo de Cabimas), Cabimas, Municipio Lagunillas, Zulia		
Phone: 0264-261-2866 0264-261-3766 Fax: 0264-261-2177		
Email: info@cateca.com		
Website: https://cateca.com/		
Contact Person: Not identified in public records.		
What they do: Engineering, procurement, and construction (EPC) firm specializing in electrical infrastructure in Zulia's oil region. Cabimas is the center of the Lake Maracaibo petroleum industry. PYGLARA relevance: EPC work in the oil region requires galvanized structural steel and copper grounding for electrical installations on facilities. Active insurance registrations confirm company still		

exists (2025–2026 documents found).
Notes: Website operational but limited updates. Activity appears reduced post-2015 economic crisis. Confidence level MEDIUM — company registration confirmed active but operational scale unclear.

ELÉCTRICA INDUSTRIAL LARA

ELÉCTRICA INDUSTRIAL LARA (Eléctrica Industrial Lara, C.A.)		
ACTIVE	MEDIUM	RIF: Not confirmed Sector: Electrical Equipment Distribution & Installation — Barquisimeto
Address: Calle 49 c/ Carrera 25, Barquisimeto, Lara Also: Av. Venezuela, Barquisimeto		
Phone: +58 424-585-0955 +58 424-561-2759		
Email: Not found		
Website: Not found		
Social Media: Instagram: @electrica.industrial (active, posts Oct 2024 and recent)		
Contact Person: Family-owned; contact via phone/WhatsApp/Instagram.		
What they do: Specialist in distribution, installation, and maintenance of compression equipment, hydroneumatic systems, pumps, motors, and electrical materials. Supplies cables, transformers, connectors, and electrical boards for residential and commercial applications. Also has historical presence in Maracaibo.		
PYGLARA relevance: Local Barquisimeto electrical supplier and installer. Would purchase galvanized electrical fittings and copper-clad ground rods for their installation projects.		
Notes: Confirmed active via Instagram activity Oct 2024. Family business with established local presence. Has survived Venezuela's economic crisis — essential-services positioning helps. Secondary contact after CORPOELEC and SASGO for the electrical sector.		

VENHETOCA — Venezolana de Herrajes Torca

VENHETOCA (Venezolana de Herrajes Torca, C.A.)		
LIKELY CLOSED	UNKNOWN	RIF: Not found Sector: Electrical Fittings & Hardware Manufacturing (historical)
Address: Not confirmed		
Phone: Not found		
Email: Not found		
Website: None found		
Social Media: None found		
Contact Person: Not identified		
What they do: Historical manufacturer of electrical fittings and hardware for Venezuela's electrical sector. No current digital presence found despite exhaustive searches in Spanish and English.		
PYGLARA relevance: If operational, would be a direct prospect for galvanized electrical hardware.		

Product alignment with PYGLARA's core output would be high.

Notes: No active website, social media, or business listings found. Company has not appeared in any current registry or directory. Likely ceased operations during 2015–2023 economic contraction. A possible successor or related entity is IVHCA (Italo Venezolana de Herrajes C.A.) — recommend inquiring with local industrial contacts. LOW PRIORITY until confirmed active.

PRIORITY 2 — Historical Clients: All Other Sectors

The following 23 companies span the fasteners, metal fabrication, industrial manufacturing, commercial/distribution, and agricultural sectors. Research is provided below in order of PYGLARA relevance within each sector.

Fastener & Hardware Companies

TORNILLOS FALCON (TORNIFAL) (Tornillos Falcón, C.A.)		
ACTIVE	MEDIUM	RIF: Not extracted Sector: Fastener Distribution — Falcón State (national coverage)
Address: Av. Independencia c/ Av. Los Orumos, Coro, Falcón Sucursal: Calle Comercio, Punto Fijo, Falcón		
Phone: (0268) 252-8212 / 251-1356 / 251-4256 Sucursal: (0269) 246-8057		
Email: ventas@tornifal.com info@tornifal.com		
Website: tornifal.com		
Social Media: Instagram: @tornifal (active 2025)		
Contact Person: Elkins Restrepo (Presidente/Gerente General) — erestrepo@tornifal.com Rolando Restrepo (Gerente Mktg. y Ventas) — rrestrepo@tornifal.com		
What they do: Most professional fastener distributor found in the region. Stocks standard, stainless steel, bronze, self-tapping, automotive, Allen, structural, petroleum-grade, and special bolts. Also tools, bearings, O-rings, bronze connections, and seals. Full staff directory on website.		
PYGLARA relevance: Fasteners in structural and industrial applications require galvanizing for corrosion resistance. With national distribution reach including petroleum (Punto Fijo), volume potential is meaningful.		
Notes: Most sophisticated fastener company found — comprehensive website, named contacts. This is the entry point for Falcón state outreach. Falcón is adjacent to Zulia (oil region) so access to petroleum sector customers is possible.		

TORNILLOS AVILA (Tornillos Avila, C.A.)		
ACTIVE	MEDIUM	RIF: J-00138121-0 Sector: Fastener Import & Distribution — National
Address: Cagua, Aragua (primary distribution center)		
Phone: WhatsApp available (see Instagram @tornavica)		
Email: Not found		
Website: Not found		
Social Media: Instagram: @tornavica (very active, posts 2024–2025)		
Contact Person: Via Instagram DM or WhatsApp		
What they do: Importers and distributors of fasteners (tornillos, tuercas, arandelas), nuts, and washers for 40+ years (since 1979). 100% Venezuelan capital. National distribution model.		

PYGLARA relevance: National fastener distributor with product lines that benefit from zinc plating. Potential for recurring galvanizing orders if PYGLARA can service the Aragua/Caracas supply chain.

Notes: Active on Instagram @tornavica. Distribution-model company — import focus rather than manufacturing. Aragua location is ~3.5h from Barquisimeto. MEDIUM priority; better as a volume opportunity once local clients are secured.

TORNI RODA BARQUISIMETO (Torni-Roda, C.A.)

ACTIVE

LOW

RIF: Not found | Sector: Fastener Distribution — Barquisimeto (local)

Address: Zona Industrial I, Barquisimeto, Lara

Phone: +58 251-446-0661

Email: Not found

Website: Not found

Social Media: Facebook: TORN-RODA CA (2 likes, minimal activity)

Contact Person: Not identified

What they do: Sells fasteners in inch and metric sizes, mechanic tools, bronze connections, wheel bolts. Local Barquisimeto distributor.

PYGLARA relevance: Local fastener distributor — small but immediately reachable given same city. Low volume expected.

Notes: Minimal digital presence. Located in Zona Industrial I (same as PYGLARA). A personal visit would quickly establish whether they are active. LOW priority — small volume — but easy to contact given proximity.

TORNILLOS CARABOBO (Not confirmed as single entity)

UNKNOWN

LOW

RIF: Not found | Sector: Fastener Distribution — Carabobo / Valencia

Address: Valencia, Carabobo (area)

Phone: Not found

Email: Not found

Website: Not found

Social Media: Not found

Contact Person: Not identified

What they do: No single company named 'Tornillos Carabobo' confirmed. Multiple fastener distributors exist in the Valencia area (Filotorca, Torvalca, Torniamerica Valencia). May reference one of these or a now-closed entity.

PYGLARA relevance: General fastener demand in Carabobo's industrial zone is real, but no confirmed entity to contact.

Notes: RECOMMEND: Verify correct company name. Possible alternatives to investigate in Valencia: Filotorca (filotorca.com), Torvalca, Torniamerica Valencia. LOW priority until name confirmed.

Metal Fabrication

TALLER CHAMA (Taller Chama, C.A.)		
ACTIVE	MEDIUM	RIF: J-07004601-5 Sector: Civil & Metal-Mechanical Construction — Mérida
Address: Zona Industrial Los Andes, Mérida, Edo. Mérida		
Phone: (0274) 266-30XX		
Email: tallerchama@gmail.com		
Website: tallerchama.com		
Social Media: Instagram: @tallerchama (active 2025, welding/fabrication photos)		
Contact Person: Via email or Instagram DM		
What they do: 55+ years of experience in metal-mechanical structures, welding, lathe work, milling. Fabricates structural metalwork, bridges, and support structures. Recent work: plasma cutting, welding services, vehicle support fabrication.		
PYGLARA relevance: Structural fabrication output requires galvanizing for durability, especially for outdoor/civil applications like bridges and industrial structures.		
Notes: NOTE: Located in Mérida (~3h from Barquisimeto), not Barquisimeto. Logistics cost is a factor but not prohibitive for batched orders. Professional long-established company.		

TORACERO (Not confirmed)		
UNKNOWN	UNKNOWN	RIF: Not found Sector: Steel Fabrication (suspected)
Address: Barquisimeto area (suspected)		
Phone: Not found		
Email: Not found		
Website: Not found		
Social Media: Not found		
Contact Person: Not identified		
What they do: Suspected metal/steel fabrication company. No confirmed current operations found.		
PYGLARA relevance: Unknown. Would be a galvanizing customer if operational.		
Notes: No search results found for current operations. Requires local Barquisimeto inquiry to confirm status and correct contact. LOW priority until verified.		

TALLER MECANICO ALFREDLUZ (Not confirmed)		
UNKNOWN	UNKNOWN	RIF: Not found Sector: Mechanical Workshop (suspected)
Address: Not found		
Phone: Not found		

Email: Not found
Website: Not found
Social Media: Not found
Contact Person: Not identified
What they do: No company named 'Alfredluz' found in Venezuelan business registries or directories. Name may be outdated, informal, or incorrect.
PYGLARA relevance: Unknown.
Notes: Zero search results. Company name needs verification. May be a persona name rather than a registered company. LOW priority — verify name first.

DALMINE (TENARIS/TAVSA) (Tenaris S.A. (parent); TAVSA — Tubos de Acero de Venezuela S.A. (Venezuelan subsidiary))		
NATIONALIZED	LOW	RIF: N/A (nationalized entity) Sector: Seamless Steel Tube Manufacturing (historically)
Address: Formerly operated through SIDOR facilities, Venezuela		
Phone: Not applicable		
Email: Not applicable		
Website: tenaris.com (international; Venezuela operations suspended)		
Social Media: Not applicable		
Contact Person: Parent company Tenaris (Buenos Aires/Luxembourg) would be the contact for any future reactivation.		
What they do: Tenaris/Dalmine manufactured seamless steel pipes and tubes for industrial and O&G applications. TAVSA (Venezuelan subsidiary) was nationalized by the Venezuelan government 2010–2012. Operations severely disrupted post-nationalization.		
PYGLARA relevance: If operations ever resume, seamless tube manufacturing would generate significant galvanizing demand. However, current prospect probability is very low.		
Notes: Venezuelan operations effectively non-functional post-nationalization. Dalmine (Italian brand) was acquired by E.ON historically; now part of Tenaris. Not a viable near-term prospect. LOWEST PRIORITY.		

Industrial & Manufacturing

INDUESCA (C.A. INDUESCA)		
ACTIVE	MEDIUM	RIF: J-00071036-8 Sector: Electrical & Metal-Mechanical Manufacturing — Barquisimeto
Address: Barquisimeto: 3ra. Calle entre Carreras 2 y 3, Galpón 137, Zona Industrial III, Barquisimeto, Lara Caracas: Av. Francisco de Miranda, Ed. Laino, Piso 1, Of. 11		
Phone: Barquisimeto: (0251) 269-2076 Caracas: (0212) 261-1464 / 261-6960 / 262-0308 Mobile: (0412) 323-9313

Contact Person: Vanessa Varela (Jefe de Planta — per LinkedIn)		
What they do: Founded 1970. Designs, manufactures, and commercializes electrical materials and metal-mechanical equipment: cable trays, aluminum/copper cables, hardware/fittings, hexagonal/octagonal/tubular posts, compression terminals, towers, transformers. PYGLARA relevance: Excellent prospect. Manufactures electrical posts, towers, and structural components that require hot-dip galvanizing. Located in Barquisimeto (Zona Industrial III, adjacent to PYGLARA's zone).		
Notes: Active company confirmed 2025–2026. Direct manufacturer of galvanizable products. Named plant manager contact available via LinkedIn. Approach Barquisimeto plant directly.		

MANPEG (Manufacturas de Postes y Equipos Génesis, C.A.)		
ACTIVE	MEDIUM	RIF: J-31184248-9 Sector: Electrical Poles & Lighting Towers Manufacturing — Barquisimeto
Address: Carrera 4 esq. Calle 18, Zona Industrial I, Barquisimeto, Lara (2 cuerdas del CICPC) — SAME COMPLEX AS PYGLARA		
Phone: (0251) 237-0769 +58 424-561-2759 (WhatsApp)		
Email: Not found		
Website: Not found		
Social Media: Instagram: @manpeg.ca (active 2025) Facebook: @Manpeg Threads: @manpeg.ca		
Contact Person: Via Instagram/WhatsApp		
What they do: Manufactures hexagonal and electric poles up to 40 meters, lighting towers, distributes electrical materials for high/medium/low-tension systems, structural fabrication. PYGLARA relevance: Steel poles and towers manufactured by MANPEG require galvanizing for outdoor corrosion protection. This is a natural, direct galvanizing customer. SAME industrial zone as PYGLARA.		
Notes: Very active on social media 2025. Located in Zona Industrial I — same complex as PYGLARA. Easy logistics. Good prospect for recurring volume once trust is established.		

SUGEVEN (Sugeven, C.A.)		
ACTIVE	MEDIUM	RIF: Not confirmed Sector: Steel Tubes & Electrical Materials Manufacturing — Barquisimeto
Address: Cr. 3 entre 2 y 4, Galpón 15, Zona Industrial II, Barquisimeto, Lara		
Phone: (0251) 269-2324		
Email: SUGEVEN2020@gmail.com		
Website: Not found		
Social Media: Instagram: @sugeven.ca (very active, posts 2025–2026)		
Contact Person: Via Instagram DM or email		
What they do: Manufactures structural steel tubes (tubos redondos estructurales), electric poles (tubular, hexagonal, octagonal), and electrical materials (high/medium/low tension). PYGLARA relevance: Structural steel tube manufacturer — core galvanizing customer. Steel tubes for outdoor electrical installations require galvanizing for corrosion resistance. Located in Zona Industrial II, Barquisimeto (adjacent to PYGLARA).		
Notes: Very active on Instagram 2025–2026. New 2026 business presentation posted. Clear interest in growth. Easy local contact.		

INAMECA (Inameca, C.A.)		
ACTIVE	MEDIUM	RIF: J-22103964 Sector: Metal Clamps / Fastening Hardware Manufacturing — Barquisimeto
Address: Calle 4, Parcela 26-A, entre Carreras 2 y 3, Zona Industrial III, Barquisimeto, Lara		
Phone: (0251) 269-2069 (0251) 269-2845		
Email: Not found		
Website: Not found		
Social Media: Not found		
Contact Person: Not identified		
What they do: Manufactures and distributes metal clamps (abrazaderas) and fastening hardware for industrial applications. PYGLARA relevance: Metal clamps for industrial use require zinc plating/galvanizing for corrosion resistance. Located in Barquisimeto Zona Industrial III.		
Notes: Minimal digital presence but confirmed in industrial directory with phone numbers. Easy to visit given Barquisimeto location.		

GEMACA (Manufactura Generales C.A. (GEMACA))		
ACTIVE	LOW	RIF: J-24200583 Sector: PEAD (High-Density Polyethylene) Pipe & Fittings Manufacturing
Address: Av. Libertador N° 30-125, Zona Industrial I, Barquisimeto, Lara 3001		
Phone: +58 251-237-6922		

Email: See gemaca.com
Website: gemaca.com
Social Media: Instagram: @gemaca.ca (active 2025)
Contact Person: Antonio Mesa (per LinkedIn)
What they do: Venezuela's leading manufacturer of PEAD (polyethylene) pipes and fittings for water, gas, mining, irrigation, fiber optics, and telecommunications. Founded 1973. FONDONORMA/COVENIN/NORVEN certified. PYGLARA relevance: Plastic products manufacturer — minimal direct galvanizing needs. May require galvanized metallic hardware or support structures for their own manufacturing facility.
Notes: Low galvanizing potential given plastic product focus. Nearby (Zona Industrial I) so worth a courtesy visit, but should not be prioritized. LOWEST PRIORITY in industrial group.

PROALCA (GRUPO PROALCA) (Proalca, C.A. / Grupo Proalca)		
ACTIVE	LOW	RIF: Not confirmed Sector: Animal Feed Manufacturing — Barquisimeto
Address: Zona Industrial III, Barquisimeto, Lara		
Phone: +58 414-544-4455		
Email: ventas@grupoproalca.com		
Website: grupo-proalca.com		
Social Media: Instagram: @proalca (active 2026)		
Contact Person: Via website/Instagram		
What they do: Manufactures balanced animal feed for poultry, pork, cattle, sheep, goats, horses. Multi-brand family business including Agropecuaria La Feliciania and Alimentos La Feliciania. 20+ years history. PYGLARA relevance: Agricultural company — no significant galvanizing needs unless for feed production equipment or storage structure components.		
Notes: LOWEST PRIORITY. Agricultural sector, not metal manufacturing. Include only if no higher-priority clients fill capacity.		

INDUSTRIAS DEMATORCA (Industrias Dematorca, C.A.)		
LIKELY CLOSED	MEDIUM	RIF: J-30262445-2 Sector: Fastener Manufacturing — Aragua State
Address: Carretera Maracay-Turmero, Sector El Macaro, Parcela 7, Galpones 1 y 2, Aragua		
Phone: Not found		
Email: Not found		
Website: Not found		
Social Media: Not found		
Contact Person: Emilio Coello (President, 2013 records — current status unknown)		

What they do: Manufactured hexagonal bolts/nuts (A-325, A-394 spec), flat washers, locking washers.

PYGLARA relevance: Fastener manufacturer that would generate galvanizing orders for bolts/nuts. If operational, a medium-volume prospect. Aragua location (~3h from Barquisimeto).

Notes: Last confirmed operation ~2012–2013. No current website, social media, or directory listing. Likely closed or severely reduced during economic crisis. Located in Aragua, not Barquisimeto. Verify before investing outreach time.

SERPECA (Seperca, C.A.)

ACTIVE

NONE

RIF: J-17975577 | Sector: Security Services (CCTV, radio communication, surveillance)

Address: Barquisimeto (Zona Industrial III and Centro)

Phone: Via infoguia.com directory

Email: Not found

Website: Not found

Social Media: Facebook listed

Contact Person: Not identified

What they do: Security and vigilance company specializing in CCTV installation, radio communication systems, and surveillance — NOT an industrial manufacturing firm.

PYGLARA relevance: NONE. This is a security services company. No galvanizing needs.

Notes: CORRECTION: Originally listed as 'industrial/services' but confirmed to be a security/vigilance company. Not relevant to PYGLARA. Remove from active prospect list.

SUGEVEN / OPTODADA (OPTODADA — not confirmed)

UNKNOWN

UNKNOWN

RIF: Not found | Sector: Unknown

Address: Not found

Phone: Not found

Email: Not found

Website: Not found

Social Media: Not found

Contact Person: Not identified

What they do: No company named OPTODADA found in Venezuelan business registries, directories, or social media. Name does not appear in any current source.

PYGLARA relevance: Unknown.

Notes: Zero search results. Company name may be incorrect, informal, or the company may no longer exist. Verify correct name with PYGLARA management. LOWEST PRIORITY.

ZN FUNDICIONES (Not confirmed)		
UNKNOWN	UNKNOWN	RIF: Not found Sector: Metal Foundry / Zinc Products (suspected)
Address: Barquisimeto area (suspected)		
Phone: Not found		
Email: Not found		
Website: Not found		
Social Media: Not found		
Contact Person: Not identified		
What they do: Suspected zinc/metal foundry. No confirmed entity by this name found. Zinc-related materials are available in Barquisimeto market but no foundry with this specific name confirmed. PYGLARA relevance: Potentially HIGH if zinc foundry — would intersect with PYGLARA's zinc supply/processing. Needs verification.		
Notes: Name may refer to PYGLARA's own zinc supplier rather than a client. Verify with PYGLARA management whether this is a customer or vendor. Requires local inquiry.		

Commercial & Distribution

COMERCIAL ORNELARA (Comercial Ornelara, C.A.)		
ACTIVE	MEDIUM	RIF: J-30126685-4 Sector: Hardware / Ferretería Distribution — Barquisimeto
Address: Calle 48 entre Carreras 21 y 22, Sector Centro, Barquisimeto, Lara		
Phone: (0251) 446-6124 / 446-5574 Mobile: +58 426-359-4044		
Email: ventas@comercialornelara.com info@comercialornelara.com		
Website: comercialornelara.com		
Social Media: Instagram: @comercialornelara_oficial (very active, posts 2026) Facebook: @COMERCIAL.ORNELARA		
Contact Person: General sales via email		
What they do: Full-service hardware/ferretería distributor. Stocks luminarias, automotive parts, water tanks, pumps, power tools, electrical tools, safety equipment, gardening, agricultural inputs, generators, and hand tools. Wholesale and retail.		
PYGLARA relevance: Hardware distributor stocks galvanized fasteners, fittings, and structural components for resale. Could be both a customer (buying galvanized products from PYGLARA) and a retail channel. Active e-commerce site.		
Notes: Professional, active business with e-commerce website and strong Instagram presence 2026. Good local relationship to develop — potential for recurring galvanized hardware purchases for their catalog.		

COMERCIAL ALEXMAR (Distribuidora Alexmar, C.A.)		
UNKNOWN	NONE	RIF: Not found Sector: Retail Gift Shop / Decoration — Barquisimeto
Address: Carrera 6 entre Calle 10 y 11, La Playa Santa Isabel, Barquisimeto		
Phone: (0251) 26XXXX		
Email: Not found		
Website: Not found		
Social Media: Instagram: @tiendaalexmar (seasonal operations, 'Cerrados hasta Febrero')		
Contact Person: Not identified		
What they do: Retail gift shop selling gifts, decorations, Valentine's merchandise, balloons, flowers, personalized gifts, shoes. NOT an industrial distributor.		
PYGLARA relevance: NONE. Retail boutique — no industrial or galvanizing needs.		
Notes: CORRECTION: This is a retail gift shop, not an industrial commercial distributor as originally listed. No relevance to PYGLARA. Remove from active prospect list.		

Agriculture (Lower Priority)

INVERSIONES PORCINAS (Inversiones Porcinas, C.A.)

ACTIVE

LOW

RIF: Not confirmed | Sector: Swine Genetics & Animal Feed — Yaracuy / Barquisimeto area

Address: Yaritagua, Yaracuy State (primary); secondary operations in Barquisimeto area**Phone:** +58 424-534-4810 (WhatsApp)**Email:** ventasinporca@inporca.com**Website:** Not found**Social Media:** Instagram: @inversiones_porcinas (very active 2025–2026) | Facebook | TikTok**Contact Person:** Via WhatsApp or email**What they do:** 40+ year swine genetics company. Supplies breeding stock, balanced feed, semen doses, and veterinary services for pork production.**PYGLARA relevance:** Agricultural business — minimal galvanizing needs unless for farm infrastructure (pens, equipment frames). Very low priority.**Notes:** Active company, 40+ year history. Located primarily in Yaracuy. Only relevant if farm infrastructure expansion creates metal structure orders.

ALIMENTOS LAS TUNAS (Alimentos Las Tunas, C.A.)

ACTIVE

LOW

RIF: Not confirmed | Sector: Animal Feed Manufacturing — Barquisimeto

Address: Carrera 7 entre Calles 1 y 4, Galpón 203-A-1, Zona Industrial II, Barquisimeto, Lara**Phone:** +58 424-556-3540 (WhatsApp)**Email:** Via website contact form**Website:** alimentoslastunas.com**Social Media:** Instagram: @alimentoslastunas (active 2025–2026)**Contact Person:** Via website form or WhatsApp**What they do:** Manufactures balanced animal feed ('Línea Naranja') for poultry, swine, cattle, sheep, goats, horses. Imports raw materials (corn, soy, amino acids). National distribution.**PYGLARA relevance:** Feed manufacturer — no direct galvanizing needs. Located in Zona Industrial II (adjacent to PYGLARA).**Notes:** Located in neighboring industrial zone. Low galvanizing potential. Lowest priority in agricultural group.

AGROPECUARIA LA FELICIANA (Agropecuaria La Felician, C.A. (subsidiary of Grupo Proalca))

ACTIVE

LOW

RIF: Part of Grupo Proalca | Sector: Pig Farming & Meat Processing — Barquisimeto area

Address: Barquisimeto area (via Grupo Proalca)**Phone:** +58 414-544-4455 (Grupo Proalca)

Email: ventas@grupoproalca.com
Website: grupo-proalca.com
Social Media: Instagram: @lafelicianave (meat distributor) @proalca
Contact Person: Via Grupo Proalca
What they do: Pig farming, slaughtering, and fresh pork distribution ('Alimentos La Feliciana' brand). Part of vertical integration with Grupo Proalca.
PYGLARA relevance: Agricultural/food processing — no significant galvanizing needs.
Notes: Lowest priority. Include only as a last resort if capacity needs filling from any source.

Master Triage Table — All 34 Companies
